

Name: _____

Critique/Show #: _____ Date of Critique/Show: _____

Project Proposal

Description:

What possible titles are you considering for this piece?

What media will you use to complete it? (*Oil on canvas, acrylic on illustration board, graphite on paper, etc.*)

How many Art Value Points do you expect to receive? _____

How big will the work be? _____ in. X _____ in.

Interpretation: *In Advanced Drawing and Painting the work must be expressive. That is, it must express an idea or emotion. Try to remember how we used ideas to form work in Beginning Drawing and Painting like the social issue for "Your World" or the song used for "The Song Project." The interpretation is about finding meaning in a work of art.*

What is this work going to be about? What social comment, story, or idea will it express? (Three sentences minimum)

Analysis: *Part of this assignment is applying the Principles of Art and Design to a work of art. Some of the principles are used in all works of art. They have been present in the work you've already completed though you may not have been aware of them. The work you complete in advanced drawing and painting must make conscious use of the principles of art. The **Analysis** is about seeing how the Principles of Art and Design are used by the artist.*

Some of the Principles of art and Design are:

Emphasis – Rhythm – Pattern – Contrast – Movement – Balance - Unity
For this project, you must focus on at least two of the Principles of Art and Design to help express your emotion or idea in your artwork. Write at least two paragraphs about the two principles you've chosen and how you will use them in your work of art.
