Project preparation and beginning:

1. Go to http://art2.jrieger.com Click on "Landscape" on the left and fill in the information to the right. *HINT: Use the "Project Presentation."*

2. Cut out the table on the right and mount it into your sketchbook.

3. Print out the "Step-by-step project instructions" from the "Resources" list on the left of the project page.

4. Take notes from the grading rubric on the left to set goals for your drawing according to the score you'd like to earn in each category (column).

5. Follow the step-by-step instructions to complete this project successfully.

The Landscape Project
What is the first learning goal? (TIP: Learning Goals are the criteria on which the project will be graded)
What is the second learning goal?
What is the third learning goal?
What is the fourth learning goal?
What media will your need to acquire?
What is the URL (web address) for this project?
When is it due? *(Note: Late work will receive a 15% reduction in points)*
